

Stop rolling video carts around! Deploy this economical, compact, and easy-to-install medical video capture device – everywhere.

Improve your facilities enterprise imaging functionality by capturing video, editing, and converting it to DICOM for archival. With its intelligent sensing functionality, any video source is quickly recognized and connected automatically.

Fully integrated with Vertex Video

Not only can you capture, but with the included Vertex Video, users can post-process, DICOMize, and store videos.

Hassle Free Setup

With auto-sensing video connections and automatic video resolution detection, set up is quick and easy. Deploy Vertex Capture in all surgical suites as well as endoscopy and fluoroscopy rooms.

Friendly user interface

The front control panel allows users to intuitively record video in crystal clear HD. A built-in hard drive is included for reliable recording of data. Vertex Capture can simultaneously record to USB memory for back up.

Record from any Source

Vertex Capture is a perfect fit no matter what video device you use. It supports surgical cameras, surgical microscopes, ultrasounds, laparoscopes, endoscopes, C-arms, and fluoroscopy systems.

Microphone and foot pedal enabled

Easy-to-use hands-free pedal allows for start, pause, and stop functions. It can also capture single-frame images. The optional microphone can be used for paired audio recording.

Compact and budget friendly

With its compact footprint, Vertex Capture can be cost effectively deployed throughout your departments – eliminating the need for rolling carts from room to room.

Increased Productivity

Authorized technicians and specialists can use Vertex Video in their own workspace –allowing the next patient procedure to begin, increasing efficiency.

Vertex Platform

Medical imaging made easy- the most affordable, scalable medical data systems

Cloud-brokered medical data sharing

Automated DICOM CD burners plus CD importing

Post-process and convert exiting video files to DICOM

Compact, economical video recorder integrated with Vertex Video

Add Paper Film, Digital Images and Documents to PACS- scan paper or film and include images and documents in studies

Reconcile Incoming DICOM and Proprietary Studies- Import DICOM and proprietary data from CDs and removable media

Manually send to local CD burner, removable media, and drives

Securely send studies using DICOM TLS with no VPN

Scheduled, Intelligent routing to any device

REVIEWER

Manage internally and externally generated DICOM and non-DICOM medical images within your role and workflow with Reviewer.

Reviewer CD

View and browse files on every CD (DICOM and proprietary) with this easy-to-use, FREE DICOM viewer software

Reviewer MD

Burn, view, store, import, and share studies from a variety of sources; send to a printer or create an encrypted DISC on the fly

Reviewer Admin

View, import, burn, share, scan, re-identify, encrypt, and MORE; do it all with this Master Edition
