

Vertex Route let's you manage your automated workflows faster and easier with its simple and intelligent routing functions.

Save time, money, and comply with HIPAA regulations. Customize your workflow utilizing Route's intelligent configurable rules sending to a multitude of destinations.

Robust routing capabilities

Define simple or sophisticated rules incorporating DICOM tags and/or date/time schedules

Send studies to any destination

Automatically route DICOM studies, based on the configured rules, to any combination of CD, SHARE, SDS, PACS, Archive/VNA, etc.

Create custom rules

Using AND, OR, and NOT Boolean operators create custom rules for routing data to its desired device and/or its destination.

Encrypt the studies

Encrypt the data to comply with DICOM and FIPS 140-2 requirements. The required password can be generated by three different methods, depending on preferred workflow (pre-set, DICOM tag, random).

Auto De-Identification

Automatically de-identify the DICOM dataset being routed. Tags (both standard and private) are selected in the configuration files and can be populated with default values.

Track all activity

Track all routing transactions in the Vertex Host database for HIPAA compliance. Custom reports can be generated by institutions for periodic reporting.

Workflow simplifications

Minimize operator responsibility and reduce human errors with predefined routing rules.

Vertex Platform

Medical imaging made easy- the most affordable, scalable medical data systems

Cloud-brokered medical data sharing

Automated DICOM CD burners plus CD importing

Post-process and convert exiting video files to DICOM

Compact, economical video recorder integrated with Vertex Video

Add Paper Film, Digital Images and Documents to PACS- scan paper or film and include images and documents in studies

Reconcile Incoming DICOM and Proprietary Studies- Import DICOM and proprietary data from CDs and removable media

Manually send to local CD burner, removable media, and drives

Securely send studies using DICOM TLS with no VPN

Scheduled, Intelligent routing to any device

REVIEWER

Manage internally and externally generated DICOM and non-DICOM medical images within your role and workflow with Reviewer.

Reviewer CD

View and browse files on every CD (DICOM and proprietary) with this easy-to-use, FREE DICOM viewer software

Reviewer MD

Burn, view, store, import, and share studies from a variety of sources; send to a printer or create an encrypted DISC on the fly

Reviewer Admin

View, import, burn, share, scan, re-identify, encrypt, and MORE; do it all with this Master Edition
